RE: Updated Resource Conservation and Recovery Act (RCRA) EPA ID Number - AZT000614602

The Arizona Department of Environmental Quality (ADEQ) has updated the RCRA EPA ID information for your facility. The EPA ID number for your location is also referred to as a "RCRA ID" number and is to be used on transport manifests and any other hazardous waste management documents required under Subtitle C of RCRA. Below are the details of the site location.

Location: SRC OIL & FUEL
5726 W MARKET ST
GLENDALE, AZ 85301

Your facility is listed as: Not a Generator, Used Oil Transporter, Used Oil Transfer Facility, Used Oil Processor, Used Oil Fuel Marketer(Directs shipment), Used Oil Fuel Marketer(Claims Specifications).

This number is site specific and is to be used for the waste activity at this site only. If your facility moves to a new location, you must apply for a new RCRA EPA ID prior to generating RCRA waste at the new location. You cannot use the EPA ID number assigned to your previous location at the new site. A new EPA ID number will be assigned for the new site.

If your facility's activity ceases because of closure or change of location, you must request deactivation of the EPA ID number assigned to this location. Failure to deactivate will require you to submit annual waste generation reports.

If you have any questions, or need assistance, please contact ADEQ at (602) 771-4173.

All correspondence regarding your RCRA EPA ID number must be directed to:
